

LEADER'S SPEAK

Mr B. Lahiri
Deputy Managing Director

Peerless is founded on the principle of Trust. We have an experience spanning more than 8 decades in the financial sector. Our experience along with our transparency give our customers the confidence and the assurance to invest with us.

The Company's subsidiaries beyond the area of financial services are performing quite creditably. The hospitality business is growing and so is healthcare. Peerless Hotels is well poised to take advantage of the increase in business travellers and tourists with expansion of existing properties and introduction of new properties in hitherto unexplored markets.

Our healthcare venture is also growing significantly. Peerless Hospital has improved its service standards and invested in state-of-the-art equipment which sets it apart from competition. The Hospital aims to provide treatment of a certain quality which is affordable and, therefore, accessible.

We are also engaged in trying to improve our performance in the financial sector. PFPDL could play an important role in impacting the fortunes of the Company.
